## OBJECTIVE

---

Fullstack Software Engineer proficient in JavaScript, MERN stack, and React Native. Eager to expand expertise in Next.js, TypeScript, and system design for comprehensive end-to-end development.

## SKILLS

---

<b>Fullstack Developer</b>	MERN Stack, Javascript, React, Nodejs, express, Mongodb, Tailwind
<b>Good in</b>	React Native, C++, CSS, Appwrite
<b>Familiar with</b>	Nextjs, Typescript

## PROJECTS

---

**Vtube** I have developed a production-grade VTube project using the MERN stack (MongoDB, Express.js, React, Node.js), with React Redux with Redux Toolkit (RTK) for state management. This platform allows users to watch and create videos like YouTube, featuring an integrated tweet section, the ability to like and comment on posts, infinite scrolling, and channel subscriptions. User authentication and sessions are managed with JSON Web Tokens (JWT). MongoDB's aggregation pipeline is used for efficient data operations, ensuring a seamless and interactive user experience. ([Live here](#))

**Social Media** I have developed a social media application similar to Instagram using React and TypeScript for the frontend, with Appwrite as the backend service and Cloudinary for storing image data. This app allows users to share photos and text posts, follow other users, like and comment on posts, and manage their profiles. The integration with Cloudinary ensures efficient image handling and storage, while Appwrite provides robust backend support for user authentication, database management, and real-time updates, ensuring a seamless and interactive user experience. ## EXPERIENCE

---

<b>Fullstack Developer</b> Self-Taught	Nov 2023 - Present
---	--------------------

- Learned JavaScript, React, and the MERN stack, focusing on both backend and frontend development over the past several months.
- Currently studying Next.js and TypeScript, with a goal to learn system design, while actively seeking job opportunities.

## EDUCATION

---

<b>Bachelor of Engineering Computer Science</b> , Chandigarh University	2019-2023
Relevant Coursework: Computer Network, DBMS, DSA, Digital, Java, C++, AI ML and many more.	

## LEADERSHIP

---

- Admin for the [ERROR 404 Discord community](#) Actively involved in Project Building, career conversations.

## EXTRA-CURRICULAR ACTIVITIES

---

- Outside of my professional career, I have a passion for playing cricket, maintaining a healthy lifestyle, and exploring new destinations through travel
